

# The 18th Annual Conference Of The Israeli Association of Emergency Medicine

# RESUSCITATION

Tuesday, April 1st 2014,  
Avenue Conference Center, Airport City

Dear colleagues,

Resuscitations are commonplace to those practicing emergency medicine.

Successful outcomes require the skill, knowledge, and experience of all of us.

The Eighteenth Conference of the Israeli Society for Emergency Medicine will be dedicated to this critical subject of "**Resuscitation**".

We use the term "resuscitation" in its broadest sense, but when one delves into its details one finds various protocols in different disciplines that are all relevant to Emergency Medicine.

The goal of this conference is to bring to the fore the cutting edge knowledge that exists in the various medical disciplines that deal with resuscitation.

To achieve this we have invited top lecturers and researchers in Israel and worldwide to present their cumulative knowledge in all aspects of resuscitation.

The conference will provide a forum for physicians, nurses and prehospital providers to present their work in the field.

**We hope that your participation in this conference will help us move forward in this important field.**

Dr. Shlomo Israelit, Conference Chairman  
Dr. Aziz Darawsche, Chairman of the Israeli  
Association of Emergency Medicine

#### Abstract Submission:

Emergency medical personnel are invited to submit abstracts to be presented at the conference. Instructions for abstracts submission can be found on the conference website. Last date for submission of abstracts: January 1, 2014.

All information will be available any time at the conference website at  
<https://event.pwizard.com/IAEM2014>
