

# *Invitation to the 2<sup>nd</sup> IBUS course in Israel*

## **IBUS – Update in Breast Imaging, Interventions & Management**

### **A practical course with ultrasound hands-on workshops**

**10 – 12 December, 2017**

- The “Update in Breast Imaging, Interventions & Management” Course brings together an international and a local faculty of breast disease experts.
- Presentations will highlight recent developments of clinical value, and define the current role of breast imaging modalities.
- The practical workshops will focus on ultrasound scanning techniques, and image-guided interventional procedures.

This course is recommended by the European School of Oncology

Under the auspices of the:

- Israeli Senologic Society -
- Breast Surgery Group of the Israel Surgical Association -
- Israel Surgical Association -
